Mission Statement

“Job-TransFair GmbH” is a non-profit organisation with the objective of long-lasting job integration of people, who are disadvantaged in the labour market. Hence, we perform an important contribution to social unity.

The employment seekers we coach, along with their professional and human skills, are the main focus of our work.

We base ourselves on the in-depth experience and knowledge of each of our key employees and encourage their individual and professional development.

Effective cooperation, consulting and mentoring are enhanced through mutual appreciation and respect. At Job-TransFair, we actively promote gender equality and reject any form of discrimination.

Our greatest asset is the diversity of the people we work with. In order to make use of this asset, we encourage an open exchange of information, experiences and opinions at all levels.
